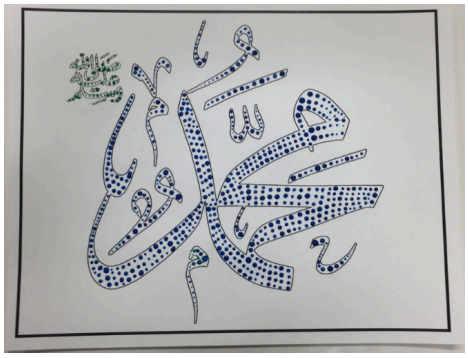
UNDER THE CLOAK OF GUIDANCE AND MERCY

Milad un-Nabi Crafts

MUHAMMAD Q-TIP PAINTING



Objective:

Children will learn how to write Muhammad (s) in Arabic and make a beautiful painting in honor of the Prophet's (s) birthday.

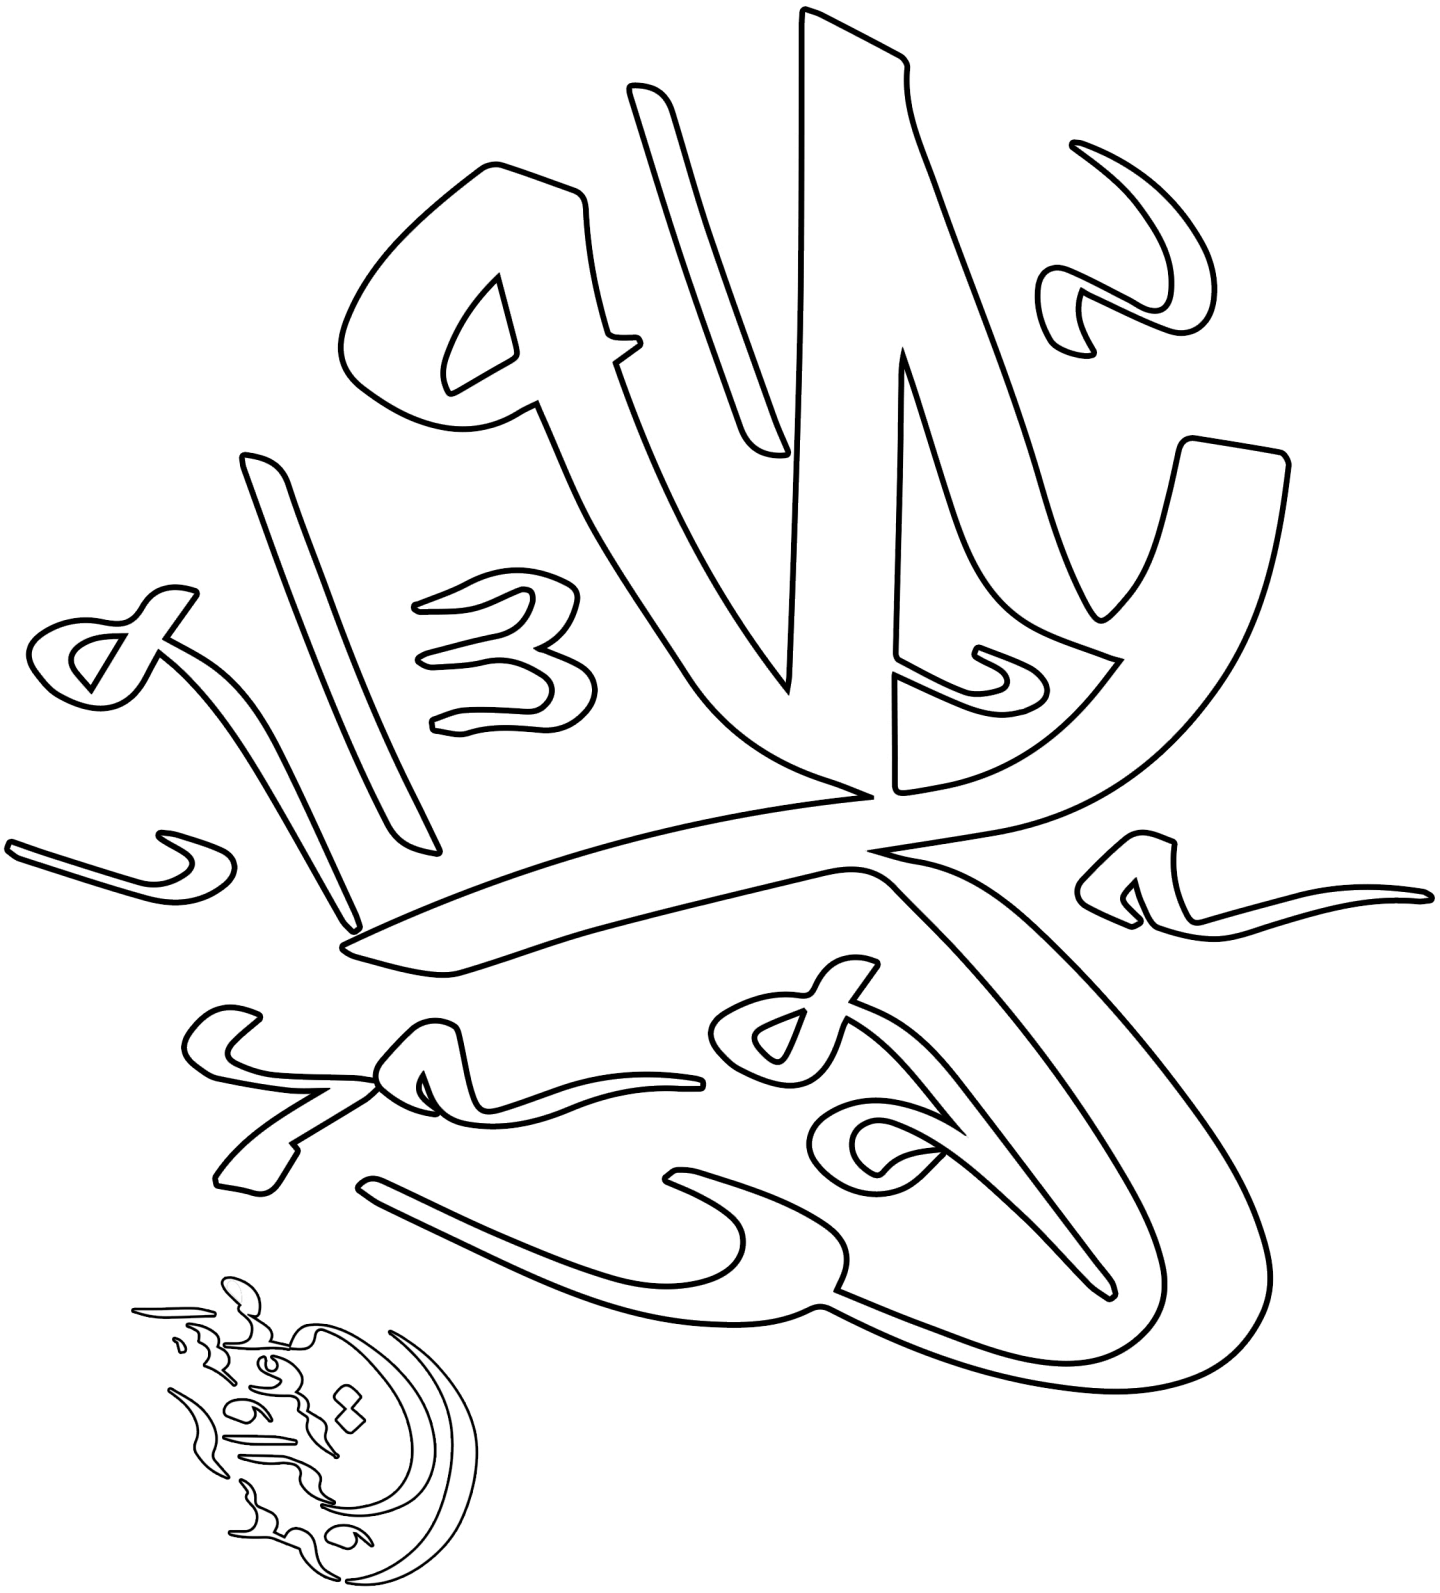
Materials:

- Muhammad (s) template
- White cardstock
- Tempera paints
- Q-tips

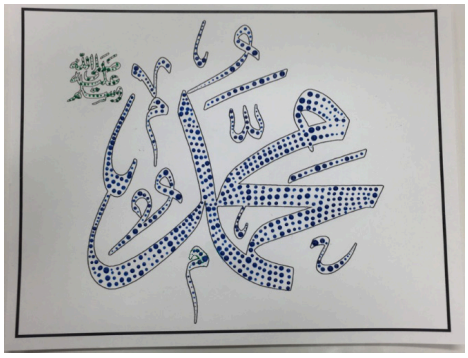
Instructions:

1. Print out the Muhammad (s) template on cardstock.
2. Prepare different containers with tempera paints.
3. Have children dip Q-tips in tempera paints and use it to make dots inside the lines. They can use multiple colors and decorate however they like.

   Note: The SAW is hard to paint with q-tips. Coloring it in might be easier for younger children or use something with a fine tip.



PROPHET MUHAMMAD SUNCATCHER



Objective:

In honor of the Prophet's (s) birthday, children will create suncatchers they can use to decorate their homes.

Materials:

- Suncatcher Template
- Overhead transparencies
- Cardstock (any color)
- Sharpies
- Scissors
- Glue
- Foil (optional)

Instructions:

1. Print the suncatcher template onto an overhead transparency.
2. Cut 1 inch strips of cardstock. You will need 4 strips per child.
3. Color the template using PERMANENT MARKERS on the right side up. Please note that it is important that you color on the right side facing up. The felt of the markers will scrape off the printing borders if you did in on the wrong side.
4. Glue the cardstock strips onto the transparency template with the right side facing up to create a frame.
5. Optional: Attach a piece of crumpled up foil to the back of the frame. This gives the frame a more permanent glow.
